An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the New Orleans Employers – International Longshoremen's Association, AFL-CIO Pension Fund as of September 30, 2015 and 2014, and the changes in its financial status for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules included in pages 31 – 33, are presented referred to for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information. The supplemental schedule of assets (held at end of year), on pages 34 – 46 and the schedule of assets (acquired and disposed of within year) on page 47 referred to as "supplementary information", is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2015 AND 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting

The financial statements of the Pension Fund (the Plan) have been prepared on the accrual basis. The financial operations of the Plan are reflected in the financial statements of the Pension Fund.

Valuation of Investments

Investments are carried at fair value. Investments traded on a national exchange are valued at the last reported sales price. Shares in common collective trust and pooled investment funds are reported at net asset value. The change in net unrealized appreciation (depreciation) in fair value of such investments is included in investment income. Gains and losses on investments that were both bought and sold during the year are included in net appreciation (depreciation) in fair value.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the provisions of the New Orleans Employers – International Longshoremen's Association, AFL-CIO Pension Fund (the Plan), to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated vested employees or their beneficiaries, (b) beneficiaries of vested employees who have died, and (c) present vested employees or their beneficiaries. The financial statements present Plan benefits based on the benefit schedule, which was in effect at September 30, 2015 and 2014, respectively. Benefits are payable under all circumstances; retirement, death and disability, and are included in accumulated plan benefits, to the extent they are deemed attributable to employee services rendered to the valuation date.

Contributions

The Plan records contributions as reported by the employers. Employer contributions are based upon man-hours worked by International Longshoremen's Association bargaining unit labor and upon the rates established by collective bargaining agreements among the New Orleans Steamship Association, its successor, MidGulf Association of Stevedores, Inc., other signatory employers, and the local unions. Contributions received are allocated between the eligible Funds (Pension, Welfare and Vacation and Holiday) at the discretion of the Board of Trustees (the Board), pursuant to the collective bargaining agreements. In 2015 and 2014, \$5.00 per hour worked was allocated to the Management-ILA Managed Health Care Trust Fund (MILA) in accordance with the Master Contract between the United States Maritime Alliance and the International Longshoremen's Association, AFL-CIO (ILA).

NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2015 AND 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

Contributions (Continued)

In 2015, contributions from 3 of 19 total employers accounted for approximately 91% of total contributions to the Funds. In 2014, contributions from 3 of 19 total employers accounted for 88% of the total contributions to the Funds. Contributions from the single largest contributing employer accounted for approximately 44% and 42% of total contributions to the Funds in 2015 and 2014, respectively.

All hourly contributions were allocated to the Pension Fund by the Board in 2015 and 2014 with the exception of the \$5.00 per hour MILA contribution rate.

Pension Benefit Payments

Pension benefit payments to participants are recorded upon distribution.

Vesting

Plan participants vest after 5 years of creditable employment.

Expenses

Indirect expenses incurred in the administration of the Plan and other funds administered by the Board are paid through the Director's Operating Account and are allocated to the funds as described below. Expenses directly related to a specific fund are also paid through the Director's Operating Account and are charged to such fund. Investment expenses amounted to \$998,887 and \$1,044,190 in 2015 and 2014, respectively. Expenses not directly related to a specific fund are allocated to the funds based upon each employee's time attributable to each fund, as approved by the Board of Trustees. It is believed that the current allocation of staff and administrative expenses achieve the desired result of a meaningful allocation of expenses. The indirect expense allocation was changed from 50% to 52% effective October 1, 2011. Indirect expenses totaled \$473,888 and \$479,199 for the years ended September 30, 2015 and 2014, respectively.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported contributions, income and expenses during the reporting period. Actual results could differ from those estimates.

SEPTEMBER 30, 2015 AND 2014

2. PLAN DESCRIPTION:

The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan Document for more complete information.

The Plan was established under the terms of an Agreement and Declaration of Trust dated May 10, 1957, as amended, between the New Orleans Steamship Association, its successor, MidGulf Association of Stevedores, Inc., and various local unions of the ILA. The Plan is administered by the Board which also administers a Welfare Plan, and a Vacation and Holiday Plan, which were also created under the agreement identified above.

The Plan is a noncontributory defined benefit plan which provides normal retirement, disability and early retirement pension benefits. The Plan also provides pre-retirement and post-retirement death benefits to qualified surviving spouses and beneficiaries of deceased participants. Qualified employee participants consist principally of employees who are employed for 500 hours or more in the industry during a labor contract year and are covered by collective bargaining agreements between various local unions of the ILA, the New Orleans Steamship Association, its successor, MidGulf Association of Stevedores, Inc. and other employers.

The Plan is funded principally by investment income and employer contributions which are based upon man-hours worked. Pension plan funding anticipates that both net contributions (less administrative expenses) and net investment earnings (less investment fees) will be needed to cover benefit payments. The Plan is to continue for a term co-extensive with the terms of the collective bargaining agreements and the Agreement and Declaration of Trust, provided that provisions authorizing continuation of the Plan are contained therein. If the Plan is not extended, the Board shall continue to perform and carry out the provisions of the Plan on the basis that all employees who become thereafter eligible to receive benefits in accordance with the provisions of the Plan shall receive such benefits as if the Plan were extended until the total assets of the Fund are disbursed.

The Board is of the opinion that the Plan complies with the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

Participants in the Plan as of the date of the actuarial valuations October 1, 2014 and 2013 were as follows:

	<u>2014</u>	<u>2013</u>

3. ACCUMULATED PLAN BENEFITS:

The actuarial present value of accumulated plan benefits was determined by consulting actuaries The Segal Company as of October 1, 2014 and 2013, the most recent valuation dates. Such amounts result from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Accumulated plan benefits at October 1, 2014 and 2013, the most recent valuation dates, were as follows:

Actuarial Cost Method	Unit Credit Actuarial Cost Method																				
Interest Rates (Net Investment Return)	7.5%, net of expenses																				
Actuarial Value of Assets	Market value of assets less unrecognized returns in each of the last five years. Unrecognized return is equal to the difference between the actual market return and the projected market return and is recognized over the five year period. Finally, an additional adjustment (if necessary) is made so that the final actuarial value of assets is within a 20% corridor of market value.

The foregoing actuarial assumptions are based upon the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

3. ACCUMULATED PLAN BENEFITS: (Continued)

- 1) Eliminated fully subsidized retirement with 30 years of creditable employment for participants who commence benefits after October 1, 2009.
- 2) Eliminated the 30% and 20% supplemental benefit payable from retirement until age 62 for participants who commence benefits after October 1, 2009.
- 3) Eliminated subsidies in the 50% joint and survivor benefit with spouse as beneficiary, both pre-retirement and post-retirement for participants who commence benefits after October 1, 2009.
- 4) Eliminated the pre-retirement lump sum estate death benefit to the extent it exceeds the amount that may be distributed without consent under IRC 411(a)(11) effective January 26, 2009.
- 5) Eliminated disability benefits for all participants disabled after October 1, 2009.
- 6) Eliminated subsidized early retirement for all participants who retire after October 1, 2009. The new early retirement factors for retirement are based on actuarial equivalence using the 1990 US Life Table for males with 8% interest.

The calculations of the present value of all future benefits and of benefits to be funded by future contributions, which are used for funding purposes, were also made by consulting actuaries The Segal Company as of October 1, 2014 and 2013 as follows:

	<u>2014</u>	<u>2013</u>
Present value of all future benefits	\$ <u>231,413,183</u>	\$ <u>239,356,230</u>
Present value of benefits to be funded by future contributions	\$ <u>91,834,412</u>	\$ <u>95,907,999</u>

As of October 1, 2014 and 2013, using The Segal Company's mortality assumptions, the actuarial present value of vested Plan benefits for withdrawal liability purposes is as follows:

	<u>2014</u>	<u>2013</u>
Withdrawal liability	\$ 274,252,459	\$ 290,037,908
Market value of assets	<u>(154,278,448)</u>	<u>(155,069,584)</u>
Unfunded present value of vested benefits	<u>\$ 119,974,011</u>	<u>\$ 134,968,324</u>

3. ACCUMULATED PLAN BENEFITS: (Continued)

The major assumptions used in the valuation of the current year's unfunded present value of vested benefits for withdrawal liability purposes by The Segal Company are as follows:

Interest:	For liabilities up to market value of assets, 3.43% for 20 years and 3.66% beyond. For liabilities in excess of market value of assets, same as used for Plan funding.
Administrative Expenses:	Calculated as prescribed by PBGC formula (29 CFR Part 4044, Appendix C); not applicable to those liabilities determined using funding interest rates.
Mortality:	Same as used for Plan funding as of September 30, 2014 (the corresponding mortality rates as of a year earlier were used for the prior year's value).
Retirement Rates:	Same as used for Plan funding as of September 30, 2014 (the corresponding mortality rates as of a year earlier were used for the prior year's value).

For purposes of withdrawal liability, these actuarial assumptions and methods, in the aggregate, are reasonable (taking into account the experience of the Plan and reasonable expectations) and which, in combination, offer the actuary's best estimate of anticipated experience under the Plan.

4. PLAN TERMINATION:

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations. Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Only vested benefits are guaranteed. Specifically, the PBGC guarantees a monthly benefit payment equal to 100% of the first \$11 of the Plan's monthly benefit accrual rate, plus 75% of the next \$33 of the accrual rate, times each year of credited service. At September 30, 2015, the maximum guaranteed benefits insured by PBGC for multi-employer plans was \$35.75 per month times the participant's years of credited service.

Federal law has a number of special rules that apply to financially troubled multi-employer plans. Under so-called "plan reorganization rules," a plan with adverse financial experience may need to increase required contributions and may, under certain circumstances, reduce benefits that are not eligible for the PBGC's guarantee. If the Plan is in reorganization status, it must provide notification that the plan is in reorganization status and that, if contributions are not increased, accrued benefits under the plan may be reduced or an excise tax may be imposed.

An insolvent plan must reduce benefit payments to the highest level that can be paid from the plan's available financial resources.

5. CASH AND CASH EQUIVALENTS:

The following is a detail of the Fund's deposits and cash equivalents as of September 30, 2015 and 2014:

	<u>2015</u>	<u>2014</u>
Demand deposits (book balances)	\$ <u>2,315,869</u>	\$ <u>2,295,670</u>
Cash equivalents:		
Collective short-term investments	4,268,191	5,204,622
Interest in securities held by an agent of the Fund in the name of the agent	<u>186,245</u>	<u>259,042</u>

Total cash and cash equivalents	\$ <u>6,770,305</u>	\$ <u>7,759,334</u>

Cash:

The balances in interest-bearing and noninterest-bearing accounts are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000 per insured bank through December 31, 2015. Due to the nature of the Fund issuing monthly pension checks there are days each month that the bank balance exceeds the FDIC limit.

Cash Equivalents:

The Fund, specifically the NOE-ILA Unallocated Contribution Account, entered into a Repurchase Agreement with First NBC Bank (the Bank). The agreement allows the Bank, on a daily basis, to automatically transfer and invest excess funds from a specified account maintained by the Fund with the Bank to a certain sale and repurchase transaction, having a one-day maturity, involving the Bank's interest in certain securities (the Securities) issued by the United States Government or agencies thereof. The Bank is a custodian of the Fund and at all times maintains possession of the underlying investments. The repurchase transaction is not insured by the FDIC, is not a deposit of the bank and is subject to investment risk including possible loss of the principal amount invested. Should the Bank refuse, decline or otherwise fail to repurchase those Securities, such default will give rise to an immediate cause of action in favor of the Fund against the Bank (i) for specific performance by the Bank of its agreement to repurchase the Securities or (ii) for such reasonable reliance damages as a court of competent jurisdiction may award.

The Pension Fund is invested in certain funds that calculate net asset value per share. These investments do not have a readily determinable fair value (i.e., shares of these investments are not actively traded in financial markets) and are in investment companies or similar entities that report their investment assets at fair value. These investments are generally categorized as common collective trusts, limited partnerships, mutual funds and pooled investment funds. There are no outstanding commitments on these aforementioned investments.

The following summarizes the investment strategy of the entities above that calculate net asset value per share, as well as the terms and conditions under which the investments may be redeemed.

Common Collective Trusts:

Amalgamated Bank – Longview Ultra Construction Loan Investment Fund

The Longview Ultra Construction Loan Investment Fund (the Fund) was established to invest the pooled contributions of eligible trusts principally in real estate construction loans which are secured by properties constructed with union labor. The Board of Directors also may compulsorily redeem all or any portion of a Shareholder's holding of Shares at any time and for any reason upon ten days' prior written notice. 7. FAIR VALUE MEASUREMENTS:

Effective October 1, 2008, the Pension Fund adopted Statement of Financial Accounting Standards for Fair Value Measurements FASB ASC 820-10, which provides a framework for measuring fair value under generally accepted accounting principles. FASB ASC 820-10 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. FASB ASC 820-10 requires that valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. FASB ASC 820-10 also establishes a fair value hierarchy, which prioritizes the valuation inputs into three broad levels as follows:

Level 1: Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Level 2: Inputs other than quoted prices that is observable for the asset or liability either directly or indirectly, including inputs in the markets that are not considered to be active;

Level 3: Inputs that are unobservable (i.e., supported by little or no market activity)

FASB ASC 820-10 also denotes three general valuation techniques that may be used to measure fair value, as described below:

Market approach – Uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. Prices may be indicated by pricing guides, sale transactions, market trades or other sources;

Cost approach – Based on the amount that currently would be required to replace the service capacity of an asset (replacement cost); and

Income approach – Uses valuation techniques to convert future amounts to a single present amount based on current market expectations about the future amounts (includes present value techniques and option-pricing models). Net present value is an income approach where a stream of expected cash flows is discounted at an appropriate market interest rate.

Assets and liabilities itemized below were measured at fair value during the year ended September 30, 2015 and 2014 using the market approach.

7. FAIR VALUE MEASUREMENTS: (Continued)

During 2010, the Financial Accounting Standards Board issued Account Standards Update No. 2009-12.

The following table presents the Pension Fund's Level 3 investments measured at fair value on the recurring basis as defined in FASB ASC 820-10 for the period from October 1 through September 30, 2015 and 2014:

	<u>2015</u>	<u>2014</u>
Beginning Balance	\$ 27,157,670	\$ 29,334,583
Realized and Unrealized gain/loss on investments:		
Net realized loss	1,039,941	1,322,506
Unrealized gain	1,401,731	998,111
Funds reclassified as level 3 due to changes in valuation methodology	(471,692)	151,111
Purchases, sales, issuances and settlements	<u>(3,691,159)</u>	<u>(4,648,641)</u>
Ending Balance	<u>\$ 25,436,491</u>	<u>\$ 27,157,670</u>

Financial instruments are considered Level 3 when their values are determined using pricing models, discounted cash flow methodologies or similar techniques and at least one significant model assumption or input is unobservable. Level 3 financial instruments also include those for which the determination of fair value requires significant management judgment or estimation. A brief description of the valuation techniques used for our Level 3 assets and liabilities is provided above.

Considerable judgment is required in interpreting market data to develop the fair value estimates. Accordingly, the estimates presented therein herein may not be indicative of the amounts that the Plan could realize in a current market exchange. The use of different market assumptions or valuation methodologies may have a material effect on the estimates.

8. INCOME TAX STATUS:

The Internal Revenue Service has ruled that the Plan qualifies under Section 501 of the Internal Revenue Code and is, therefore, not subject to tax under present federal income tax laws. The Plan has been amended since this ruling. However, the Plan's management believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the Internal Revenue Code.

The Plan's federal Annual Return/Report of Employee Benefit Plan Tax Returns (Form 5500) for 2015, 2014, 2013 and 2012 are subject to examination by the IRS, generally for three years after they were filed.

Effective January 21, 2004, the Board of Trustees authorized the Plan to lend its securities to broker-dealers and other entities with a simultaneous agreement to return the collateral for the same securities in the future. The Plan has entered into a contract with a company, which acts as their third party securities lending agent. The lending agent has access to the Plan's lendable portfolio of available assets, such as U.S. and non U.S. equities, corporate bonds, government bonds and government agency bonds. The lending agent continually reviews credit worthiness of potential borrowers through adequate analysis of all material provided to them. 12. PENSION PROTECTION ACT:

The Pension Protection Act of 2006 requires the Plan's actuary to certify whether or not a plan is either "Endangered," (Yellow Zone) or "Critical," (Red Zone). As of October 1, 2015 and 2014 the Fund was in critical status (Red Zone). Plans in the Red Zone are required to follow a set rehabilitation schedule which can be accelerated but not delayed.

On April 22, 2009 the Plan entered into a Rehabilitation Plan which commenced on October 1, 2010 and will last thirteen years as permitted by Section 205 of the Worker, Retiree, and Employer Recovery Act of 2008 (WRERA). The Rehabilitation Plan requires increases in the employer contribution rate and benefit reductions. Participants who retired on or prior to October 1, 2009 were not affected by the Rehabilitation Plan. The Rehabilitation Plan was amended on September 22, 2010 to extend the Rehabilitation period by an additional 15 years to September 30, 2039. The Rehabilitation Plan was further amended on September 23, 2011 to change the employer contribution rate increase in the Preferred Schedule of the Plan such that contributions will remain fairly level through October 1, 2014 and then increase by inflation. The Rehabilitation Plan was amended again on September 18, 2012, September 25, 2013 and September 17, 2014 however no changes were made to the employer contribution rate increases in the Preferred and Default Schedules.
