IBEW 127
3030 39th Ave
Kenosha, WI 53144
Friday, April 10, 2026
12:00 PM - 7:00 PM

Carla Gruetzmacher Administrative Manager I.B.E.W 292

"I am simply amazed by this service. I participated in a simple 10-minute ultrasound to find out if I had risk of stroke. In that 10 minute, I not only found out I had no risk of stroke, BUT I was made aware of what turned out to be thyroid cancer. This service explains what they are seeing with your ultrasound as they are performing the test. So, as the technician was scanning me, he explained that I had a small thyroid cyst that was very low risk, but that I should consult my doctor and let him decide next steps. I am so lucky I did! My doctor stated that without this ultrasound there would have been no way to detect such a small cyst, and finding cancerous cysts early is the key. My treatment was easy, and there was no need for any chemo or radiation. Please give an hour of your time even if you do not think you have risk of stroke, it very well may save your life."

To make an appointment (required):

Call 515-244-3080 or visit:

See reverse for a description of the screenings offered!

ULTRASOUND OF
ARTERIES & VESSELS

BLOOD DRAW

BIOMETRICS

COMPREHENSIVE
HEALTH ASSESSMENT

TO SCHEDULE, CALL 515-244-3080 OR GO ONLINE TO <https://WEE.hgscreenings.com/>

YOUR HEALTH IS OUR PRIORITY

CARDIOGAUGE

Carotid Artery

Visualizes the buildup of fatty blockage in the carotid arteries. This condition causes the majority of strokes.

Peripheral Artery Disease (ABI)

Checks for blockages in the legs. Abnormal results indicate high risk of coronary artery disease and peripheral arterial disease

Abdominal Aortic Aneurysm (AAA)

Visualizes the existence of an aneurysm in the abdominal aorta, that can rupture and be fatal.

BIOGAUGE

Height/Weight
Hip/Waist Circumference
Body Mass Index (BMI)
Blood Pressure/Pulse
Full Chemistry Panel
Lipid Panel with Glucose
Hemoglobin A1c
Prostate Specific Antigen (PSA) - Men
Thyroid Stimulating Hormone (TSH) - Women

NEW THIS YEAR

Total Testosterone - Men
High Sensitivity CRP (HS-CRP)
Complete Blood Count (CBC)
Vitamin D
